

HEALTH, SAFETY AND ENVIRONMENT POLICY STATEMENT

British Steel is committed to achieving the highest industry standards of health, safety and environmental performance. We believe zero harm is achievable through engagement and continual improvement. Our board members are accountable for performance delivered through exemplary leadership standards and behaviours.

We will endeavour to:

Prevent all injuries, work related illness and minor/major accidents

All employees should receive suitable training on the hazards they face and the safe systems of work to control risk.

Minimise the environmental impact from our operations and products

Strive for improved environmental performance and resource, water and energy efficiencies through the adoption of sustainable practices.

Ensure all employees and contractors are responsible for their own health, safety and protection of the environment. Management however are accountable

Management has the responsibility to demonstrate appropriate leadership standards and behaviours.

Ensure all employees are engaged and competent through provision of suitable information, instruction and training

Achieve excellence in health, safety and environmental protection which will drive successful business results

Without a healthy, safe and environmental focused operation there can be no sustainable business.

Integrate safety, health and environmental management into all our business systems and processes

Actively engage our local communities

Active engagement with the communities near our sites will allow us to understand and seek to address their concerns.

Promote responsible procurement and product stewardship

We will encourage key suppliers and contractors to behave in an environmental responsible manner and will promote the reuse and recycling of our products throughout their life cycle.

Minimise our greenhouse gas emissions to meet our climate change responsibilities

On behalf of the board

PJ Hogg

Peter Hogg, Commercial Director
