

## **Customer information concerning**

### **Substances of Very High Concern in articles**

Steel products are considered as articles under the European Regulation (EC) 1907/2006, concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

Article 33 of the REACH Regulations oblige suppliers of articles containing Substances of Very High Concern (SVHC) in a concentration greater than 0.1% by weight to communicate this information to its customers.

British Steel manufactures freecutting leaded steel grades. These have enhanced machinability and increased efficiency and are supplied as articles. Freecutting leaded steels can contain lead up to 0.35%.

Lead, EC/List no. 231-100-4 and CAS no. 7439-92-1, was placed on the SVHC list on the 27<sup>th</sup> June 2018.

For further information please contact British Steel
